There were lots of "heroes" in the fracas with Spain. The Navy Department has a list of 800 officers and 6,000 enlisted men who are to be decorated with medals for distinguishing themselves.

Asheville is wrestling with an ice trust. The trust seems to take it very coolly, and rake in the profits on high prices. In this game of freeze out it has a monopoly and, therefore, the upper hand.

Some lady friend of Andrew Carnegie will get married this month and he has shown his sympathy for her by making her a present of $1,000,000. He thinks this will help her in starting housekeeping.

A Chicago policeman has a record as having saved 100 lives, but he walks around town just like an ordinary policeman. If he wore soldier's clothes and had killed half as many he would be a blue ribbon "hero."

Ducking was another of the Philippine "water cures." They soused the victim under water water and held him half a minute or so. That wasn't as bad as pumping him full of water and then trampling it out of him.

That New York judge who in a suit by a livery stable man, who sued for the value of a horse which ran away and got killed, decided that the man who hired the horse had to pay for him, may probably be the judicial annex of some livery stable.

The South Carolina dog, which belongs to the same genus as the North Carolina dog, isn't a respecter of the angora goat, either. A man near Greenville, who started in the goat business, with a nice flock, on which he was counting, now finds himself reduced to three, and has to keep guard over them.

The Washington *Post* says the War Department has no idea of complying with the Culberson resolution, asking for a statement of expenditures made from the Cuban funds since American occupation, before the elections have been held. It doesn't propose to supply the Democrats with any campaign ammunition.

WIND AND RAIN STORM PREVAILED YESTERDAY.

The Elements Looked Angry and Some Little Damage Was Done—At the Beaches and at Sea.

The storm predicted by the Weather Bureau Sunday came on full time during the early hours of yesterday morning and the wind and rain was fierce. The maximum velocity attained was 25 miles, but gusts came along that must have reached nearly twice that rate. Yesterday afternoon about 3 o'clock there was another hard blow, accompanied by rain, but it was the last reminder of the storm that had passed up the coast.

At the beaches the velocity of the wind was terrific, but it caused no alarm and did not the slightest damage. Capt. Farr, of the schooner *G. M. Brainerd*, from New York, came over the bar about 6 A. M. and says the blow was hard on the outside. He lost his yawl boat in getting over into the harbor.

In the city a few branches were torn from trees, but the only real damage reported was from the plant of the Hilton Lumber Co., near the park. Two tall sheet iron smokestacks were blown down and a part of the roof over the planing mill was torn off. The damage, however, will be quickly repaired, but it will be at a cost of perhaps several hundred dollars.

LOCAL DOTS.

— For other local see fourth page.

— A scarlet fever quarantine has been established at No. 105 South Ninth street.

— The new cars of the Street Railway Co. are up-to date. They look well and run almost as smoothly as a Pullman.

— License was issued yesterday for the marriage of Miss Kizzie Green, daughter of Mr. Rowan Green, to Mr. Walter D. Colwell, both of Wilmington.

— *News and Observer*: "Cards are out for the marriage of Mrs. Susan H. Dean and Col. Peter Mallett, at Oakhurst, New Jersey. Col. Mallett is well known in this State."

— Wilmington representatives who will attend the Elks' Convention at Asheville next month will make a strong pull for the meeting to be held in 1903 at Wrightsville.

— Examinations for entrance to the A. & M. College, at Raleigh, will be held Tuesday, July 10th, in the Court House by Prof. Washington Catlett, the county superintendent.

— The STAR acknowledges with thanks the receipt of a handsome calendar from Dr. R. G. Rozier, Lumberton, N. C., advertising a number of meritorious proprietary medicines, of which Dr. Rozier is the manufacturer.

— Fifteen adults were received into the membership of St. Andrew's Presbyterian church on Sunday. The work at St. Andrew's in Dr. McClure's hands is progressing and the congregation is being strongly built up through his faithful and conscientious work.

Dr. Edward Jenner Wood.

Dr. Edward Jenner Wood, a son of the lamented Dr. Thos. F. Wood, of this city, will graduate this week with the degree of M. D. from the University of Pennsylvania, Philadelphia. Dr. Wood completes his course with distinction and his friends predict for him the same brilliant professional career that made his father so well known and loved throughout the State. Dr. Wood will sail from New York the latter part of this week for a tour through Europe with the family of his uncle, Mr. James Sprunt, who left Saturday night to be present at his graduation.

Services by Mr. Hanson Sunday

Services in St. Paul's Lutheran church Sunday were ably conducted by Mr. Henry W. A. Hanson, son of Mr. Louis Hanson, of this city. His efforts are highly praised by all who heard him. Mr. Hanson is only 20 years of age and is a student of Gettysburg Lutheran Theological Institute. He is at home spending a vacation with his parents.

Very Little Given Out from Yesterday's Special Meeting in Richmond, Va.

BOND ISSUE AUTHORIZED.

It Will Not Exceed $20,000 Per Mile. Appointment of An Assistant Treasurer With Headquarters in Savannah—Meet in July.

[By Associated Press.]

RICHMOND, VA., June 17.—At the meeting of the stockholders of the Atlantic Coast Line Railroad Company, held this afternoon at the general office in this city, a resolution was adopted authorizing the issuance of bonds, not to exceed $20,000 per mile, on the mileage of the new consolidated system. The stockholders further authorized a mortgage to be given to the United States Trust Company, of New York, on all property and franchises of the road.

There were no changes made in the officials or directors of the company, the officials mentioned in the merger continuing in service, and the old board of directors being unanimously re-elected.

The appointment of an assistant treasurer, who shall have his headquarters at Savannah, was authorized. His appointment will be effective July 1st.

Prior to the meeting of the stockholders, the Board of Directors held a brief session at 10:30 o'clock at which President Elliott presided with Mr. James F. Post as secretary. At this meeting the board declared the regular dividend usually paid in July.

The stockholders adjourned to-day to meet again in Richmond on July 8th.

Savannah *News*, 16th: "General Freight Agent Menzies, of the Plant System, will remain with the A. C. L. upon the consolidation of the Plant System with the Coast Line, July 1. This statement is authoritatively and positively made for the first time. * * * No change will be made in Mr. Menzies' title. He will be general freight agent and there will be no changes made in his office force for the present He will remain at Savannah, it having been decided to retain the office of the general freight agent at this place. General Superintendent W. B. Denham of the Plant System will be made superintendent of the Atlantic Coast Line, it is pretty well understood, succeeding General Superintendent Divine, who will retire after years of service.

It is said that General Freight and Passenger Agent H. M. Emerson of the Coast Line will be its traffic manager, and that a general passenger agent will be named, with office at Savannah, who will report to him. It is further said that Traffic Manager T. M. Emerson of the Coast Line will become one of its vice presidents.

The auditor's office of the Plant System is expected to remain in Savannah for the present, at all events. Accounts will be audited both here and at Wilmington.

GEORGIA TROOPS ARE COMING.

Encampment Committee from Fifth Regiment Visited Wrightsville Yesterday.

Maj. W. W. Barker, Capt. P. S. Parrott and Capt. F. M. Hadley, Jr., of Atlanta, Ga., line officers of the Fifth Georgia Regiment, arrived in the city Sunday and went down to Wrightsville beach to inspect proposed sites for the annual encampment of their regiment in July. They returned home yesterday afternoon very much pleased with the outlook here and have definitely decided to recommend "the hammocks" as a suitable place for the outing. Their action was telegraphed last night to a meeting of the officers of the regiment, and it is expected that the committee's recommendation will be favorably acted upon.

At a meeting last Thursday in Atlanta the vote was 12 to 4 in favor of "the hammocks" but it was decided to send another committee there to look more fully into the matter. A number of the staff officers of the regiment previously visited the place about two weeks ago. The encampment will last about 10 days from July 17th-27th and will bring about 600 men to the beach with the Fifth Regiment Band of Atlanta, one of the finest in the South. An artillery company will also probably come.

The committee which visited Wilmington yesterday came two to three in favor of St Simon's Island but after seeing "the hammocks" and the delightful beach, they went back unanimous for Wrightsville. In order to get the place in readiness for the coming of the Georgia troops about $500 in cash will be required and it is expected that following a definite announcement that the regiment is coming, this amount will be forthcoming at once. The encampment would, bring thousands of dollars to the city while only hundreds are required to get it.

Summer in Europe.

Mr. and Mrs. James Sprunt and little son, Master Lawrence, and Dr. Edward J. Wood will sail from New York the latter part of this week for Europe, where they will spend the Summer. Mr. Sprunt and Master Lawrence left for Philadelphia Saturday night and Mrs. Sprunt left last evening.

Toney Ashe Not A Member.

Commander L. Lamb, of J. C. Abbott Post No. 15, G. A. R., asks that the statement be corrected that Toney Ashe was a member of the Post. He was dropped from the list three years ago according to the Commander although prior to that time he was standard bearer.

CREATED A SENSATION IN THE POLICE COURT.

Negro Incensed by Sentence to Roads Rose Up and Struck His Prosecutor—Heavy Monday Docket.

There was a bad negro in the police court yesterday. His name is Jesse Beatty and when he was sentenced to the roads for 30 days for an assault upon Rufus Davis, colored, Saturday night, he arose from the prisoner's box and dealt his prosecutor two furious blows under the jaw before the Mayor and court officers could recover themselves from the unexpected manifestation of the negro's audacity. The Mayor added a $50 fine or 30 days more on the roads for contempt of court and the officers hustled the prisoner down stairs and into a cell. Beatty was arrested by Policeman M. Jones near Davis' stables, where he was employed. He was walking with some negro women, when he says Davis came and peered into their eyes, whereupon he struck him for his impudence.

Silas McGee, colored, arrested Saturday night by Policeman Frank George for disorderly conduct, and Jno. Atkinson, colored, arrested Sunday morning at foot of Chesnut street by Policeman Holt, were each found with a deadly weapon upon their persons and were bound over to the higher court. In default of bond they went to jail.

Two colored women, charged with keeping a disorderly house in Wallace's alley, were each fined $20 and costs or required to leave the city at their option. They chose the latter course. A negro man arrested in the house was fined $10 or given 30 days on the roads. He took the roads.

Jim Anderson, George Thomas and Monroe Davis, all colored, were mixed up in a watch stealing affair, but the defendants were discharged for lack of evidence.

SAD DEATH YESTERDAY AFTERNOON.

Mrs. DuBruix Cutlar Passed Away at Her Home—The Funeral To-day.

Many friends in the city will hear with profound sorrow of the death of Mrs. Lillie Masten Cutlar, wife of DuBruix Cutlar, Esq., which occurred at her home, No. 308 Nun street, yesterday afternoon at 3:45 o'clock, after a serious illness of more than a week.

The death of Mrs. Cutlar had been expected for several days, but the news of her passing away will cause a very sad blow to hundreds who have anxiously inquired of her condition from hour to hour. She was a lady of sweet, gentle disposition and was loved and admired in a wide circle of friends attracted to her by her charming personality and noble Christian character. Her husband, a few friends and a devoted mother, Mrs. Carter, were at her bedside when she breathed her last. Mr. Louis Cutlar, brother of Mr. DuBruix Cutlar, was also with the family in their hour of sorrow, having arrived a few hours before from Marion, N. C. Besides the relatives mentioned Mrs. Cutlar leaves a sweet little daughter, aged only one week, who is yet too young to realize the sad loss it has sustained.

Mrs. Cutlar was born July 26th, 1878, and was a daughter of the late Lee Masten and a grand-daughter of the late Col. Joe Masten, so well known throughout Western North Carolina. She was educated at St. Mary's College, Raleigh, and was married Nov. 18th, 1896.

Funeral services will be conducted at 6 o'clock this evening and the remains will be taken on the northbound A. C. L. train to Mrs. Cutlar's former home at Winston-Salem, N. C., for interment.

To Attend Bankers' Association.

Mr. Andrew Moreland, cashier of the Atlantic National Bank, left yesterday afternoon for Savannah, Ga., to attend the annual meeting of the Tri-State Bankers' Association, which begins to-day. The meeting will be a notable one, and will attract prominent people interested in banking from Georgia, Florida and North Carolina. The sessions will last three days.

Evangelistic and Biblical Institute.

On account of the Presbyterian Evangelical and Biblical Institute of the Synod of North Carolina, to be held at Davidson College June 24th to July 2d, all railroads of the State have given a rate of one fare for the round trip; tickets on sale June 2d, 3d and 4th, and good for return until July 5th, continuous passage each way. Board is $1 a day or $5 for the conference.

All the Way By Water.

Messrs. Reston Stevenson and H. B. Short, Jr., arrived at Wilmington at 2:30 P. M. Sunday from Chapel Hill, the entire distance having been travelled by water in a small canvas canoe since June 6th. They were met near Point Peter by a large crowd of excursionists going down the river on the steamer *Wilmington* and were greeted with cheers. Both the young men graduated this year at the University.

Ad Approaching Marriage.

Friends in the city have received the following invitation announcing the marriage of popular young people: "Mrs. Liston L. Mallard requests the presence of your company at the marriage of her daughter, Mary Hendry, to Mr. Harvey Hazzell Jones, on Wednesday evening, June 25th, at 7 o'clock, Presbyterian church, Wallace, N. C."

With the exception of one inning in which Sweeney allowed Ashenback's Sluggers to get all the hits of the game, yesterday's exhibition of the National sport was of the "jam up" variety. Both pitchers were in magnificent form and regardless of who won the game, the contest was an interesting one.

The tall and arrogant John Rishop, the star sting driver of the Hornets, was pitted against Sweeney and those were terrible odds.

The first two men who faced Sweeney—Weaver and Graham fanned the ozone and big "Red" Armstrong could get the leather no further than second, whence it went in short order to "Billie" Dommel before the big fellow could connect with the initial cushion.

Wilmington had a beautiful chance to score in its half of the first, but failed. Holland flew out to right and McGinnis drew a pass. Dommel flew to left and Lawson got life on error of second. Deiters drew a pass filling the bases but Kairns ended the hope by flying to short. Sweeney pitched but three balls to retire the Charlotteans In the second and Wilmington went down in its order with the exception of an error by Cooper allowing O'Neill life.

Cooper, Lehman and Bishop were down in their order in the third and it was the same with Wilmington.

In the fourth Sweeney took a "boomberschute" ride and the visitors piled up four runs on the only five hits of the game. Weaver walked and was sacrificed by Graham. Armstrong singled to left, scoring Weaver and O'Stein hit safely to right. Brouthers drove a three-bagger between centre and left field and Armstrong and O'Stein crossed the plate. Ashenback singled to left bringing Brouthers in. Cooper fanned; Lehman singled to left but Tall Bishop ended the agony by popping a beautiful one to Lawson. A quick double of Deiters' hit to third killed the effect of Lawson's previous single to left and Kairns fanned for Wilmington in its half of the fatal spasm.

There was no more run-getting until the eighth when Weaver fanned for Charlotte and Graham ran out three strikes to first, when Fisher dropped the ball. A passed ball by Fisher allowed Graham secon and after Armstrong had walked he scored on O'Steen's long fly out to right. Brouthers fanned.

Umpire Sherman was in decidedly poor favor with the spectators. He was not popular when he left here for Newbern last week, and he certainly added nothing to his popularity yesterday. His apparent misjudgments of strikes and balls easily rattled the pitchers.

Kairns, the new player, was in right and accepted several brilliant chances without an error. Hines received a sprain Saturday and was not in the game, but once in a while he appeared on the coach line where he is a past grand.

The score follows:

Kairns for Wilmington and Brandt for Charlotte.

— The attendance was large. Let it be larger still to-day.

— A picked team, captained by Walter McIntyre, will leave this afternoon for three games with Bennettsville, S. C. "Sammie" Dunn will pitch one of the games.

— Mathison and Hines are both disabled by sprained ankles.

— Oh! yes, we'll get one from Charlotte, if the creek don't rise.

— Mr. Sherman cannot be classed with the experts in umpiring.

— Ashenback says it is possible he may pitch an inning or two himself to-day.

— Herr Von Donder Blitzen Dommel made two of the four hits credited to Wilmington.

— There was very little snap in the game. Nobody carried a bottle of Jamaica ginger.

— Honors were easy between Sweeney and Bishop; but neither was up to his usual standard.

— Kairns, the latest addition to the home team, acquitted himself handsomely in right field.

— Lengthy Jack Bishop is "out of sight" at the bat, and so are the balls that he tries to macerate.

— Give Kairns a cordial reception to-day. But do not expect too much of him in his first game here.

— Kairns, Wilmington's new pitcher, will go in the box to-day. Brandt will do the honors for Charlotte.

— The horse editor will bet twenty cents that Wilmington wins one of the two remaining games with Charlotte.

— The patent extractor for pulling the stings out of the Hornets slipped a cog; but it is expected to work more satisfactorily to-day.

— The Hornets made all their hits in the fourth inning, and four of their five runs. The remainder of the game was comparatively quiet.

— Ashenback says the Wilmington team is just 50 per cent. stronger than when he last met it. He offers his money that the reorganized team will win more games that it will lose.

— They do say that some of the Charlotte people are "sore" because Ashenback's men have lost a game or two. It is to be hoped not. Suppose Charlotte had played in the hard luck that Wilmington has experienced since the season begun? Gee!

— Members of the Charlotte team were holding little indignation meetings on the streets last night at the news that the Charlotte local management was "knockin'" Ash. Wonder if they expect the astute Ed to win 'em all in a lump?

— So many have expressed a desire to see another game between the Bachelors and Benedicts that preparations are on foot for another contest between these formidable kiskidees next Saturday afternoon. Manager Ed. Battle is already signing a fast team for the Bachelors. It will be for the benefit of the uniform fund.

WELL KNOWN CITIZEN DEAD.

Mr. Geo. W. Yopp Died Yesterday Afternoon at Wrightsville.

Many friends in this city will learn with profound sorrow of the death of Mr. George W. Yopp, a well known citizen and son of Mr. S. L. Yopp, of Wilmington, which occurred at 5:20 yesterday afternoon at his home on Wrightsville Sound, after an illness of five or six months with asthma of the heart. Mr. Yopp had been confined to his room for a week or more and his death was not wholly unexpected.

He was born in Wilmington and was in the 54th year of his age when he died. For a greater portion of his life he was engaged as a decorator and painter and was well known and universally liked throughout the city. He leaves, besides his father, a sorrowing wife and two sons, Mr. Hugh C. Yopp, of Salisbury, and Mr. Jennings Yopp, of Wilmington. He also leaves three brothers, Messrs. W. E., S. F. and A. J. Yopp, of Wilmington, and two sisters, Mrs. G. M. Murrell, of Wilmington, and Mrs. C. B. Ellsworth, of Portsmouth.

The funeral will be conducted at 5 P. M. to-day from St. Andrew's Presbyterian church, of which he was a member, and the remains will be laid to rest in Bellevue.

Raided a Moonshine Distillery.

Deputy Collector C. M. Babbitt, of Newbern, and Deputy Marshal C. O. Knox, of Wilmington, returned Sunday from a trip through Brunswick county in search of an illicit distillery that was known to exist in the neighborhood of Shallotte. Their search was rewarded Friday night in the capture of a well arranged "moonshine" plant of fifty gallons capacity, three miles from Shallotte, but the operators escaped, although the still was warm when the officers bore down upon it. They cut the still up and destroyed a quantity of beer, low wines, and a few jugs of inferior grade whiskey.

Steamer Wilmington Sunday.

The steamer *Wilmington* was a popular vehicle of pleasure Sunday and hundreds of people partook of a delightfully refreshing breeze from its spacious decks. The afternoon boat to the beach for the sacred concert by the Post Exchange Band, of Fort Caswell, was crowded and those who heard the music were delighted with it. The evening boat to the pier and return was also a popular one, and all told perhaps 750 people were guests of Capt. Harper during the day.

Big Excursion from Atlanta.

A telegram from Atlanta says: "One of the largest excursions of the season out of Atlanta will leave here next Friday evening for Wrightsville Beach, N. C., the popular Summer resort. All the berths in three Pullman sleepers have already been reserved, and it is likely more sleepers will have to be run."

Advantages of Cooking by Gas.

SUMMARIZED.

GAS is immediately available at all hours of the day and night.

2. Gas, unlike other fuels, does not have to be stored by the user.

3. Gas is the cleanest of fuels.

4. Gas always burns—is the surest and quickest of fuels.

5. Gas requires no kindling wood except a match.

6. Gas is a cheaper fuel for ordinary family cooking than either coal or wood.

7. The consumption of gas may at any moment be augmented or diminished to meet the actual need.

8. With a good gas stove no heat is wasted in heating parts of the stove not in use.

9. A good gas stove is the coolest of kitchen stoves.

10. Foods cooked by gas lose much less in weight than when cooked by coal or wood, and are therefore more wholesome.

11. A good gas stove is a wonderful saver of time, work, worry—is woman's best helper and friend.

Married in New Jersey.

Miss Eleanor Frederick, daughter of Mr. and Mrs. G. W. Frederick, and a young lady formerly of this city, was married at St. Mary's parsonage, Trenton, N. J., last Saturday noon to Mr. Geo. W. Quinn, of New York. Only a few intimate friends and the mother of the groom were present to witness the ceremony, which was a quiet but a very pretty affair indeed. The bride was attractively attired in a travelling gown of lawnsdowne. Mr. and Mrs. Quinn will spend their honeymoon at Cape May, after which they will go to their future home in New York.

Moonlight Excursion To-night.

Don't forget the moonlight excursion to-night by the United Workers of the First Baptist church. The boat will leave at 7:45 P. M. and the trip promises to be most delightful. There will be music and refreshments and other entertainments.

Capt. Willey May Leave.

It is learned that Captain Owen S. Willey, of the United States revenue cutter *Algonquin*, has been detached from that ship and will be retired from active service on account of his poor health. It is also stated that Captain Walstein A. Failing will succeed him on this station. Captain Willey has been here for three yaers and the people of Wilmington are very much attached to him and his good wife. Their departure would be much regretted.

Funeral of the Late F. Mayer.

The funeral of the late Frederick Mayer was conducted at 8:30 o'clock Sunday morning from the late residence, No. 811 Dock street, the Rev. Dr. S. Mendelsohn, rabbi of the Temple of Israel, officiating. The remains were taken on the steamer *Wilmington* and laid to rest at Southport beside his wife, who preceded him to the grave in 1864. The pall bearers were: Messrs. Frank Meier, E. V. McKenzie, C. E. Hall, J. Weil, Wm. Goodman and John Taylor.

MARRIED.

FREDERICKS-QUINN—At St. Mary's Parsonage, Trenton, N. J., Saturday, noon, June 14th, Miss ELEANOR FREDERICKS, daughter of Mr. and Mrs. G. W. Fredericks, formerly of Wilmington, to Mr. G. W. QUINN.

BY WILLIAM H. BERNARD

WILMINGTON, N. C.

TUESDAY MORNING, JUNE 17.

A TUB TO THE WHALE.

The Washington *Post*, which is independent in polititics, also is a protection paper, but it does not believe in monopolistic trusts nor in protection simply to put more money in the coffers of the trusts and other beneficiaries of the tariff, and take it out of the pockets of the people. Hence it is opposed to trusts, and has vigorously advocated tariff reduction on what it calls moderate lines. But it does not think the trusts are in danger, a view in which a good many people agree with it. Its views are expressed in the following editorial:

The tariff-protected monopolists ought to be able without great effort to find good cheer in the present political situation. A Democratic victory in the Congressional elections would secure them immunity from adverse legislation for at least one year from next December. A Republican victory would leave them still in the friendly hands that have dealt so kindly with them; still in the gracious keeping of statesmen who have avoided offending them as carefully as as if anti-trust legislation were high treason. Should the Democrats experience another of those sweeping changes that have more than once lifted them out of the depths and up to the heights, carrying the country this year and again in 1904, the tariff-protected monopolists would be in clover. The Senate would stand as an immovable barrier to Democratic tariff revision. It will be Republican for at least two more Congresses. That is part of the penalty imposed on Democracy for its wild dance with Populism.

The *Post* has hoped for tariff revision on conservative lines, for the abolition of abuses without iconoclastic forays. That is the pledge of the Republicans as they enter upon the contest for control of the next House. That is all they offer in atonement for the refusal of two Congresses to look to the interests of the consumers. If the combines believe that promise, if they are satisfied that another Republican Congress will address itself to the reform of tariff abuses, they will naturally prefer a Democratic House. Preferring a Republican defeat, will they not try to secure it? At any rate, we see the strange spectacle of the G. O. P. going into a campaign with a keynote policy that menaces the interests on which it has long been accustomed to depend for the sinews of war—a policy that makes it important to those interests that the Democrats should win.

But it strikes us as just possible that the trusts and combines will regard the Republican programme of tariff revision as a tub thrown to the whale of Republican discontent and intended for use only during the campaign. Surely the fidelity with which the Fifty-sixth and Fifty-seventh Congresses have stood by the monopolistic combinations entitles the leaders to a continuance of the confidence of those great interests.

Of course every one who knows anything about the manipulation of Republican State and National contions knows that all this anti-trust stuff found in the platforms of the conventions held within the past year or so was inspired by politics, and that the makers of those platforms are no more opposed to trusts now than they were two years ago or six years ago, when Mark Hanna was passing his hat around among them and getting checks for all the money he wanted.

It is not to be supposed that they are in earnest in their anti-trust talk or that if they retain control of Congress they will do anything to suppress trusts, or to restrain those now in operation. But they found it necessary to do something to placate that element in the Republican party which demands some legislation to curb and regulate the trusts and believes that tariff reduction is one of the speediest and most effective ways to do this. The necessity of placating that element, which is strong in the party, too strong to trifle with, was impressed upon them by the strong approval of the position taken by Representative Babcock, of Wisconsin, in the last Congress, when he declared that the articles on the tariff list controlled by trusts, exported and sold at a lower price in foreign markets than in the home market should be put upon the free list. That was his remedy (and a good one) to bring the trusts down and force them to deal as fairly by the American people as they do by foreigners. They sell at one price in foreign markets because they have competition and at another and much higher price in the home market because they have no competition, the protective feature of the Dingley tariff giving them a practical monopoly of the home market.

The managers succeeded in gagging Babcock, so that the bill which he contemplated never came up for discussion, but they didn't get him gagged before thousands of Republicans, and some of them quite prominent, had been heard from. They would not be as easily gagged ap Babcock was. This sentiment has been more pronounced in the West than in the East, and that is why the Republican machine manipulators are so anxious to placate it, for the success of the party depends on carrying Western States, which, although normally Republican, are so by majorities that it would not take many changes to overcome, and wheel them in the Democratic column, at least as far as the election of Congressmen goes.

The speakers and writers who voice the sentiments of these tariff reduction Republicans, in defence of their position, quote the late President McKinley, President Roosevelt and other leading lights of the party, who advocate tariff reduction as the first and necessary step toward reciprocity and trade expansion, which they declare essential to the continued prosperity of our manufacturers who now produce more than the home market can consume. As there is no answer to this all they can do is to promise tariff reduction and the curbing of the trusts "when the time is ripe," as was said by some of the leaders who recently met in conference with the President to discuss the situation and what was best to do in the campaign next Fall.

They are not going to tackle the tariff, nor the trusts, but they are going to promise tariff reduction "when the time is ripe" and tackle the trusts which get too saucy (like the Beef Trust, for instance). But as it has taken them 12 or 15 years to discover that there was such a thing as a trust in existence, which some to them do not yet admit, it will take them some time to discover the difference between trusts that come under the Sherman anti-trust law and those that do not, and when they do discover it the sure-enough trusts will be few and far between, so few that they will not think it worth their time to bother with them if they succeed in humbugging the voters into electing a majority of Republicans to the next Congress. In the meantime they will continue to "throw tubs to the whale," and will not fail to prod the trust managers so that they may understand the tub business and not worry over it.

AFRAID TO SHOW THE BOOKS.

A short while ago Senator Culberson introduced a resolution in the Senate calling on the Secretary of War to send to the Senate a statement of expenditures from the Cuban Treasury since American occupation. The War Department has paid no attention to that resolution and it is said will not until after the Fall elections.

Saturday a similar resolution introduced in the House by Mr. Hay was laid on the table by a strictly party vote, the meaning of which is that the Republicans do not propose to show any books as to expenditures in Cuba until after the Fall election, if they do then.

According to testimony given before the Senate Committee on Cuban Affairs, General Wood by direction or approval of the authorities at Washington disposed of funds in the Cuban treasury as he saw fit. He contributed to the American Export Association, on the testimony of its president, Mr. Thurber, between $8,000 and $9,000 to promote reciprocity with Cuba. He admits using money from the Cuban treasury for that purpose, and defends it on the ground that he was the custodian of Cuba's welfare, and not only had the right but it was his duty to promote her welfare, in the way that to him seemed best. He has no apologies to make for that, and his action is endorsed by the President and by Senator Root.

Following this comes the charge that he paid Gen. Gomez $25,000 out of Cuba's treasury to keep the ex-Cuban soldiers from making any trouble before the convention was called and held. It is said that he did this with the full knowledge and consent of the late President McKinley, because it was feared that any trouble in Cuba might interfere with his election for the second term. Gen. Wood hasn't made any reply to that yet.

It is not surprising, under the circumstances, that they should be anxious to keep the books closed until after the election, and longer. If they were opened the veneering would be peeled off of their much-heralded disinterested patriotism in dealing with Cuba.

RATHER TOO PREVIOUS.

Some time ago one of the Western Representatives, whose name we have forgotten, introduced a resolution in the House providing for the annexation and ultimate Statehood of Cuba, under prescribed conditions. Saturday last Senator Elkins, of West Virginia, offered in the Senate a resolution for the same purpose. It seems to us that both of these resolutions are somewhat previous, and both seem to be based on the assumption that Cuba will be unable to navigate alone and that annexation will be with her a matter of necessity.

We incline to that opinion, but the less said about that on this side and the less interest we seem to take in it the sooner the Cubans may come to that conclusion. At all events the first move towards annexation should be made by them, and we can certainly afford to wait as long for it as they can, although Americans who have large investments in the island may be in a hurry.

Hampered as Cuba is in her trade relations with this country, handicapped as she is by the Platt amendment in making treaties with other countries, with an empty treasury and the necessity for a considerable amount of money to meet accrued indebtedness and current expenses Cuba will be severely tried, and it is more than probable that the task may prove too much for her, in which event annexation will be her only hope.

But annexation will be opposed by some of the protected interests even more strenuously than reciprocity is for then we would have instead of the proposed 20 per cent. tariff reduction free trade. Where then would be the beet and cane sugar makers of this country who declare that 20 per cent. reduction would ruin them?

PAINE'S CELERY COMPOUND

Has Proved a Blessing to All Ranks and Conditions of People in Summer.

A Prominent and Popular Chicago Lady Restored to Health.

The success of Paine's Celery Compound in banishing the ills and diseases that follow people into the summer time, has not been confined to any particular class of society. Men esteemed in business and professional life, mechanics, farmers, women leaders in society, and the wives and mothers of humble homes, have all by voice and pen, contributed strong testimony in favor of the medicine that restored them to health and strength.

When Paine's Celery Compound is used there is no more neuralgia, rheumatism, dyspepsia, stomach derangements, liver or kidney troubles. The blood once foul and stagnant, is made fresh and pure, and courses with a regularity that brings vigor and happiness. The use of one bottle is often sufficient to establish a health robust enough to combat the dangers and perils that are common in hot weather.

Mrs. A. T. Lermond, Chicago, Ill., Corresponding Secretary of the W. C. T. U., tells of her complete restoration to health through the use of Paine's Celery Compound. The great medicine was prescribed by one of Chicago's ablest physicians. Mrs. Lermond says:—

"A few years ago I went through a surgical operation. After being in bed for four months I was able to be up, but was exceedingly weak and worn, nervous, and unable to sleep or eat. My physician prescribed Paine's Celery Compound, and I at once began to feel stronger. After using a few bottles my health and strength were completely restored, and I am glad to give this testimonial in its favor."

A Chicago man insulted the Austrian consul in that town by refusing to remove his hat when requested to do so and was ejected by the consul. Then the Chicago man got as mad as the consul, and now the State Department may have something to do with it to determine whether this country owes an apology to Austria for the Chicago man's refusal to remove his hat, or whether Austria owes the apology for the firing of that Chicago man. Thus far, after rummaging international law and etiquette, they have not been able to find anything bearing on the Chicago hat case. The consul says he didn't care a flip of a nickel about the discourtesy to him, but he insisted on that hat coming off in the presence of the picture of the Emperor Francis Josef, which decorates one of the walls of his consul shop.

—— If the beet sugar Republican Senators join the Democrats and knock the differential off refined sugar, Mr. Havemeyer will be unhappy every time he thinks of that $2,000 he contribnted to the reciprocity fund.—*Norfolk Virginian-Pilot, Dem.*

—— Returns of leading exports for eleven months, as reported by the Treasury Bureau of Statistics, indicate a falling off of about $75,000,000, as compared with eleven months of the fiscal year. Cotton exports decreased $22,000,000; breadstuffs, $52,000,000; cattle and hogs, $7,000,000; while provisions increased about $4,000,000, and mineral oils less than $700,000. The volume of the traffic, however, is larger than for any corresponding period, except the phenomenal year 1901 and the war season of 1898. Should this year's harvest prove abundant the coming fiscal year's exports might easily surpass all previous record.—*Philadelphia Record, Dem.*

— Winston *Journal*: The effect of the coal strike is being very much felt by the manufacturing establishments in the city. The supply of coal in the city is now the lowest it has been for many years, and unless something happens to increase the receipts of fuel here soon a number of our firms will be forced to stop their machinery. The Fries Woolen Mill was reported suspended Friday night.

— Tarboro *Southerner*: Friday articles of incorporation of the Consumers' Cotton Oil Company were signed and forwarded to Raleigh to the Corporating Commission for a charter. The capital stock is $50,000 with a proviso for increasing to $100,000. —— The stockholdere in the Mutual Cotton Oil Company, (Farmers' Cotton Oil Mills), met Friday and organized.

— Fayetteville *Observer*: Mr. Walter Watson informs us that the ball and shell found at Council Hall during the excavations for the wharf of the Fayetteville & Wilmington Steamboat Company on Monday were buried there by order of Col. Childs, commander of the arsenal. He says that when the arsenal was evacuated a great quantity of ball and shell were removed to the river to be shipped to the Wilmington forts, but that the approach of Sherman's army prevented this, and Col. Childs ordered their burial to prevent their falling into the hands of the Yankees. These were manufactured at the arsenal during the war for the Confederate artillery.

— Goldsboro *Argus*: Judge W. S. O'B. Robinson heard the evidence at the court house this morning in the Winn murder case and admitted Frank Winn to bail in the sum of $2,500. The trial was held under habeas corpus proceedings. Frank Winn was brought to the city last Saturday and placed in jail for the murder of his cousin, Charles Winn, at Mt. Olive, last night was a week ago. The only eye witness to the tragedy is a negro boy seven years of age. He gave a straightforward and intelligent description of the murder when on the witness stand, and looks to be a very bright boy. Frank Winn, who is worth some property, had little trouble in giving bond and he went back to his home at Mt. Olive this afternoon.

— Greensboro *Record*: A most horrible accident occurred at a saw mill near Hillsdale, about nine miles from Greensboro, Friday afternoon, by which Mr. Everett Archer, aged 20 years, lost his life in a twinkling. With other men he was at work at a saw mill sawing timber. No one knows, and it probably will never be known, how it occurred, but one of the men turned aside to get a drink of water; before he could do so his attention was attracted by a noise, and he turned to find young Archer in the clutches of the saw. Before the machine could be stopped he was pulled into it and so horribly mangled that he died in a very few moments.

— Winston *Sentinel*: Mr. J. A. Hill, of Brown Mountain, in Stokes county, after spending several days here in the interest of his air-ship, returned home Saturday. He stated that he had decided to begin work on a real flying machine as soon as the required capital stock of $1,000 is subscribed. He has already secured seven stockholders, who subscribed $100 each. Mr. Hill says several other parties have about decided to take stock and he will wait a week or two to see what they will do. He feels confident that the money needed will be raised and that his ship will sail beautifully when completed. —— Tobacco planting throughout the tobacco belt of this State has been rather small thus far, and the farmers in many sections are discouraged at the prospect. With a good season, however, many plants will be set. In some sections a scarcity of plants is reported, and from nearly every section there comes complaint of the scarcity of labor.

Wide Tires and Good Roads.

Doubtless the best way to keep an earth road, or any road, for that matter, in repair is by the use of wide tires on all wagons carrying heavy burdens. Water and narrow tires aid each other in destroying streets, macadam, gravel and earth roads. Narrow tires are also among the most destructive agents to the fields, pastures and meadows of farms, while, on the other hand, wide tires are roadmakers. They roll and harden the surface, and every loaded wagon becomes in effect a road roller. Nothing so much tends to the improving of a road as the continued rolling of its surface. Tests made at the experiment stations in Utah and Missouri show that wide tires not only improve the surface of roads, but that under ordinary circumstances less power is required to pull a wagon on which wide tires are used.

New Jersey's Good Roads.

New Jersey was probably the first state to make radical progress in roadbuilding. By her state aid law, passed in 1891, it was possible for the authorities, under the direction and petition of the taxpayers, to spend $450,000 a year in road improvement. Under this beneficent law ten miles of excellent roads were built the following year, double that in the next year, and since 1895 the full limit of the amount allowed by law has been annually used. Allowing $3,000 per mile, this means about 150 miles of roadbuilding every year.

The Value of Contrasts.

There is nothing like contrasts to demonstrate the superiority of the good and the worthlessness of the bad in roadbuilding, says the Cleveland (O.) News-Herald. Every first rate highway is a powerful indictment of the folly which permits roads near it to remain in a state more befitting Spain than the great and rich American republic. The difference is so striking and so easy to see and feel that the argument silently made for general road improvement is the most potent possible.

Demand Good Roads.

People generally are beginning to realize that roadbuilding is a public matter and that the best interests of American agriculture and the American people as a whole demand the construction of good roads and that money wisely expended for this purpose is sure to return.

COTTON MARKETS.

By Telegraph to the Morning Star

NEW YORK, June 16.—The cotton market opened quiet with prices down one to four points in sympathy with unfavorable developments in the Liverpool market and then became quite steady on demand from local shorts who were influenced by drought news from the central and western sections of the belt. However, bull speculation was very feeble and the bear leaders seemed to have no misgivings as to the ultimate course of the market. Prices were soon slipping lower, point by point, under fairly active selling for both accounts, based largely upon weak late Liverpool cables and official reports of soaking rains over the Carolinas, Georgia and the eastern portion of Florida. Wall street interests and what appeared to be New Orleans bull operators sold on the late forenoon break. Trading was active in a feverish way. Reports that spinners were not buying cotton in the South and a drop of 1-16d in the spot cotton in Liverpool greatly disturbed commission house longs here. Not until July had dropped to 8.60 and August to 8.33 was there any semblance of a change for the better. Predictions that to-morrow's weekly crop weather report from Washington will be less favorable than that of last week, particularly as concerns the central and western belt, caused a quick turn of smaller shorts for cover, on which July jumped to 8.65 and August to 8.38. But in the last hour liquidation and bear pressure broke out afresh and prices once more worked downward. The market closed barely steady and net five to fifteen points lower. Total sales were estimated at 150,000 bales.

DEMOCRATIC PLAN OF ORGANIZATION.

1. The unit of county organization shall be the voting precincts. In each precinct there shall be an executive committee, to consist of five active Democrats, who shall be elected by the Democratic voters at the several precincts in the meeting first called by the county executive committee. And said committee so elected shall elect one of its members as chairman, who shall preside at all committee meetings.

2. The chairmen of the several precinct committees shall compose the county executive committee, which shall meet at the same time and place as the county convention first held in each election year, and elect a chairman of said county committee who need not be a member of the committee, and he shall preside at all meetings of said committee, and shall hold his place until his successor shall be elected. A majority of said precinct chairmen, in person, or by proxy, shall constitute a quorum. The county committee shall likewise appoint a central committee of five, who shall act in its stead when the county committee is not in session.

3. In case there shall be a failure on the part of any precinct to elect its executive committee for a period of thirty days, the county executive committee shall appoint said committee from the Democratic voters of said precinct.

4. The members of the precinct committee shall elect to any vacancy occurring in said committee.

5. The county executive committee shall call all necessary conventions by giving at least ten days' notice by public advertisement in three public places in each precinct, at the court house door, and any Democratic newspapers that may be published in said county, requesting all Democrats of the county to meet in their respective precincts on a common day therein stated, which said day shall not be less than three days before the meeting of the county conventions, for the purpose of electing their delegates to the county conventions. Thereupon the meeting so held shall elect their delegates to represent the precincts in the county convention from the voters of the respective voting precincts, which delegates, or such of them as shall attend, shall vote the full Democratic strength of their respective voting precincts on all questions that may come before said county conventions. In case no meeting shall be held in any precinct in pursuance of said call, or no election shall be made, the precinct executive committee shall appoint such delegates.

PRIMARIES.

6. At every precinct meeting there shall (before the delegates to the county convention are elected) be a vote taken for the different candidates for office, whose names may be presented and the delegates shall vote in the county convention of their respective districts in accordance with this vote; that is to say, each candidate shall receive in the county convention that proportion of the vote to which the precinct may be entitled which he received in the precinct meeting. The chairman and secretary of the precinct meeting shall certify to the county convention the vote received by each candidate at the precinct meeting.

7. Each precinct shall be entitled to cast in the county convention one vote for every twenty-five Democratic votes, and one vote for fractions of thirteen Democratic votes cast by the township at the last preceding gubernatorial election. Provided, that every voting precinct shall be entitled to cast one vote, and each precinct may send as many delegates as it may see fit.

8. The chairmen of the precinct committees shall preside at all precinct meetings. In their absence any other member of said committees may preside.

COUNTY AND DISTRICT CONVENTIONS

1. The several county conventions shall be entitled to elect to their senatorial, judicial and congressional conventions one delegate and one alternate for every fifty Democratic votes, and one delegate for fractions of over twenty-five Democratic votes cast at the last preceding gubernatorial election in their respective counties; and none but delegates or alternates so elected shall be entitled to a seat in said conventions: Provided, further, That in all county conventions in which delegates shall be selected to attend any State, congressional, judicial or other convention, a vote shall be taken in accordance with the plan of organization as to the candidates whose names may be presented to such county convention. The delegates shall be selected from the friends and supporters of each candidate voted for, in proportion to the number of votes he shall receive in such county convention and no other instruction shall be given: Provided further, That when only one candidate is presented and voted for at each county convention it shall be lawful to instruct for such candidate.

2. At every county convention (before delegates to State, congressional, judicial, senatorial or other conventions are chosen) there shall be a vote taken for the different candidates for office whose names may be presented and the delegates shall vote their respective counties in accordance with this vote, that is to say each candidate shall receive in the State, congressional, judicial, senatorial or other convention the proportion of the vote to which the county may be entitled which he received in the county convention. The chairman and secretary of the county convention shall certify to each convention the vote received by each candidate given: Provided, That where only one candidate is presented it shall be lawful to instruct for him. At all State and district conventions the delegates from the different counties may disregard the vote of their respective counties as to any candidate: Provided, That a two-thirds majority of all his votes from the county consent.

3. The chairman, or in his absence any member of the county, senatorial, judicial and congressional convention shall call to order their respective conventions and hold chairmanship thereof until the convention shall elect its chairman.

4. The executive committees of the senatorial, congressional and judicial districts, respectively, shall, at the call of their respective chairmen, meet at some time and place in their respective districts, and the chairmen of said respective committees shall immediately notify the chairmen of the different county executive committees of the said appointment and the said county executive committee shall forthwith call conventions of their respective counties in conformity to said notice to send delegates to said respective district conventions.

STATE CONVENTIONS.

The State convention shall be composed of delegates appointed by the several county conventions. Each county shall be entitled to elect one delegate and one alternate for every one hundred and fifty Democratic votes and one delegate for fractions over seventy-five Democratic votes cast therein at the last preceding gubernatorial election; and none but delegates or alternates so elected shall be entitled to seats in said convention: Provided, That every county shall have at least one vote in the convention.

Resolution passed at meeting of executive committee, November 30, 1897:

"*Resolved*, That in accordance with the resolution hereinbefore adopted, all white electors who intend to vote with us in the next election, and who desire the re-establishment of Anglo-Saxon supremacy and honest government in North Carolina are cordially invited to participate in all our primaries and conventions."

GENERAL RULES.

1. At all conventions the delegates shall be selected as near as may be from the friends and supporters of the candidates voted for.

2. Such delegates—or alternates of absent delegates—as may be present at any Democratic convention shall be allowed to cast the whole vote to which their precinct or county may be entitled.

3. In all conventions provided for by this system, after a vote is cast, there shall be no change in such votes until the final result of the ballot shall be announced by the chairman of said convention.

4. All Democratic executive committees shall have the power to fill any vacancies occurring in their respective bodies.

5. The chairmen of the different county conventions shall certify the list of delegates and alternates of the different district and State conventions, and a certified list of said delegates and alternates to the secretary of the State central committee.

6. It shall be the duty of the county committee and its chairman to furnish such information and make such reports to the chairman of the State committee as he may desire.

F. M. SIMMONS,
Chairman State Democratic Executive Committee.
P. M. PEARSALL, Secretary.

ILLINOIS DEMOCRATS.

State Convention Meets To-day—Speculations as to the Platform.

By Telegraph to the Morning Star.

SPRINGFIELD, ILL., June 16.—There is every indication that the Democratic State Convention which meets here to-morrow will be one of the most conservative Democratic conventions held in this State in recent years. Many delegates are here who have not attended a State gathering of their party in eight to ten years, and there is among them a strong disposition to steer wide of sensationalism. It is practically certain that there will be nothing in the platform favoring either W. J. Bryan or free silver. Among the men opposed to declarations on these points are some who have been in the past enthusiastic partisans of the man from Lincoln, Nebraska.

THE ISTHMIAN CANAL PROJECT.

Strong Speeches Made in the Senate in Advocacy of the Panama Route.

LONDON DOCK CHARGES BILL.

Passed the Senate Without Division. Miscellaneous Business in the House—Miss Taylor's Dismissal from War Office.

By Telegraph to the Morning Star.

WASHINGTON, June 16.—After a discussion extending over parts of several days the Senate to-day passed what is popularly known as the London dock charges bill. The opposition to the measure practically collapsed and it passed without division.

Consideration then was continued of the Isthmian Canal project, Senator Cullom, of Illinois, and Senator Kittredge, of South Dakota, delivering speeches in advocacy of the Panama route. The former based his argument principally upon the isthmian commission recommending that route, asserting that he was satisfied that a good title to the property could be obtained. Senator Kittridge not only strongly favored the Panama route, which in his judgment was much better, but also attacked the Nicaragua plan as lacking in definiteness. He pointed out that Costa Rica was constitutionally unable to grant the necessary concessions to the United States, and if the Nicaragua route was selected it probably would be a long time before work could be begun, even if it ever could be. The speeches of both senators were accorded close attention by the Senate.

Senator Cullom said in the course of his remarks on the question:

"We are called upon to select between a route 183 miles long and one 149 miles long; between a route costing $189,000,000 and one costing $184,000,000, between a route which will annually cost $3,300,000 to operate and maintain and one that will cost but $2,000,000 to operate and maintain; between a route that will take but twelve hours to navigate and one that will take thirty-three hours; between a route that has been a highway of commerce for 400 years and one that has never been used; between a route on the entire length of which there is in operation a railroad worth seven million dollars and a route with no transportation facilities. For all these reasons the Panama route should be selected."

Senator Kittridge indicated also that the Maritime Canal Company would have a claim against the United States in the event of the adoption of the Nicaragua route. This claim he estimated at $25,000,000, in addition to the amount of the company's claim against Nicaragua, which the United States would have to assume. That company, he said, was holding its concessions for the purpose of reimbursing itself from the United States treasury.

Just before adjournment a spirited discussion was precipitated over a motion by Mr. Proctor, of Vermont, to agree to a conference with the House on the Army appropriation bill. Several weeks ago the Senate was affronted by a message from the House refusing to submit to conference certain Senate amendments to the bill. The opposition to Senator Proctor's motion was so vigorous that finally he was forced to withdraw it.

House of Representatives

The House to-day transacted some miscellaneous business under suspension of the rules. It included the adoption of resolutions appropriating $25,000 for the preparation of plans for a memorial in this city to Abraham Lincoln; $100,000 towards the erection of a monument to the prison ship martyrs who died off Brooklyn as a result of the cruelties to which they were subjected by the British during the revolutionary war, and $10,000 for the erection of a monument at Fredericksburg, Va., to the memory of General Hugh Mercer, who was killed during the revolutionary war. The resolution adopted today was to carry out an authorization made for this purpose in 1877 by the Continental Congress.

The resolution calling on the Secretary of War for his reasons for the dismissal of Rebecca J. Taylor, a clerk in the War Department, was laid on the table—109 to 84. Three Republicans voted on this question with the Democrats.

A bill to authorize the Secretary of War in his discretion to favor American built ships in the transportation of government supplies to the Philippines was defeated.

The House adoped a resolution to make the Philippine government bill a special order from June 19th to 26th inclusive.

The Senate amendments to the Naval appropriation bill were nonconcurred in and the bill was sent to conference.

WAS IT ATTEMPTED SUICIDE?

Young Lady Known Here Shot Herself Near Carthage, N. C., Saturday.

[*Special to Charlotte Observer.*]

CARTHAGE, Juue 14.—Miss Montie McIntosh made what is likely to prove a successful attempt at suicide yesterday evening at the home of her uncle, David Dunlap, about eight or ten miles west of here. It is learned that Mr. Dunlap left her alone at the house during the afternoon as well and cheerful as ever so far as he knew. Some time afterward he heard a pistol shot at the house and upon investigation found Miss McIntosh on the floor with a pistol wound in her left breast—the ball having passed through her lung and lodging in her back. It is said that her recovery is doubtful. No cause for the act can be ascribed.

Miss McIntosh's parents live in Wilmington, but she has spent much time among relatives in this county, where she is well connected and highly esteemed. She had recently returned from St. Peter's Hospital, at Charlotte, where she was employed as trained nurse.

THE LONG ISLAND TRAGEDY.

Mystery Surrounding the Drowning of Miss Sarah Lawrence and Clarence Foster Still Unexplained.

By Telegraph to the Morning Star.

NEW YORK, June 16.—Louis Disbrow, who, the authorities believe, can clear up a good portion of the mystery which surrounds the drowning of Miss Sarah Lawrence and Clarence Foster in Shinnecock bay, has not been heard from. The girl was buried to-day at Riverside, L. I., and an examination of the body before it was placed in the grave did not reveal any marks of violence.

Coroner Nugent and District Attorney Smith, of Suffolk county, decided to-day after a conference to take up the case Wednesday at Good Ground, L. I. They will examine several people and then decide as to what further steps to take to discover if the drowning was other than accidental.

Thomas Disbrow, of Richmond Hill, L. I., father of Louis Disbrow, was asked to-day whether he thought it was his son that jumped from the Brooklyn bridge yesterday. Mr. Disbrow said that the description given of the man who committed suicide answered in some respects to that of his son, but that he knew of no reason why he should desire to end his life. It was possible, he thought, that his son's mind had become unbalanced on account of the notoriety brought upon him by his connection with the tragedy at Good Ground.

A DESPERATE NEGRO.

Under Sentence to Hang Next Friday. Fired the Jail and Attempted Suicide.

By Telegraph to the Morning Star.

ELLICOTT CITY, MD., June 16.—John Johnson, a negro murderer who is awaiting the execution of the death sentence of Friday, to day fired the jail and hanged himself in his cell. Johnson set fire to his clothing which he piled against the wood work of his cell. The warden discovered the blaze and extinguished it before any great damage had been done. Shortly after locking the man in another cell the attendants were attracted to his compartment by strange noises and upon investigation found Johnson hanging from a beam. He had his suspenders as a noose. When cut down he fought the jailors viciously and endeavored to butt out his brains against the walls. A straight-jacket was put on the prisoner. The sheriff thinks Johnsen is not seriously hurt. Johnson and another negro, Frank Jones, are to be hanged on Friday for the murder in March of Israel Radetsky, a jewelry peddler.

AFFAIRS IN VENEZUELA.

Revolutionists Who Attacked La Guaria Repulsed by Government Forces.

By Telegraph to the Morning Star.

WILLEMSTAD, ISLAND OF CURACOA, June 9.—Advices received here to-day announce that the Venezuelan revolutionists attacked LaGuaira, the port of Caracas, Saturday, June 7. The government forces answered by shelling Maiquetia, a suburb of LaGuaira, from the forts ashore and from the Venezuelan warship Miranda. Only peaceful women were killed.

All the commercial houses at LaGuira were closed by the bombardment and the inhabitants were panic stricken.

Eventually the revolutionists, who numbered about four hundred men, were repulsed. They destroyed the bridge at Bouquenon, on the Caracas railroad, and stopped all traffic for twelve hours. They also cut the French cable and the telegraph wires.

The people of Caracas were thrown into a state of alarm, and every one began buying provisions, apprehending a siege.

STORM IN GEORGIA.

Buildings Demolished and Crops Damaged. One Man Killed by Lightning.

By Telegraph to the Morning Star.

COLUMBUS, GA., June 16.—A terrific wind, rain and electrical storm did considerable damage at Richland, situated thirty-nine miles from here on the Seaboard Air Line this afternoon. J. M. Hurley, a peach merchant, was instantly killed by lightning. He was packing peaches under a shed at the time and his wife who was near him was severely shocked. The stores of Layfield & Bell, W. Etheridge, R. E. Mayo, T. S. Chappelle, and the large Clegg building were unroofed and their stocks almost ruined by wind and water.

The new school dormitory, a negro academy, the Methodist church, the new Christian church and the new residence of Edward Woodward were blown to the ground, besides numerous small houses and shops, and trees were uprooted and gardens and crops are ruined. The peach crop suffered greatly,

STRIKE SITUATION GROWING SERIOUS

Mining Companies Call on the Sheriffs of the Counties for Protection.

IN WEST VIRGINIA FIELDS.

Conflicts Between Strikers and Guards at Mines—Many Shots Exchanged. Demand That Non-Union Men Quit Work in the Mines.

By Telegraph to the Morning Star.

BLUEFIELDS, W. VA., June 16.—There are not as many men at work in the Flat Top coal region to-day as on Saturday. Several parties of a hundred and fifty to two hundred strikers paraded the field, armed with Winchesters, and a great many shots were exchanged between them and the guards at the mines. At the Buckeye operation a party of a hundred strikers most of them armed, prevented the men from going to work. Thirty-eight armed strikers were met by guards on Coaldale mountain as they were crossing Elkhorn tunnel. The rifles were taken from them and stored at Coaldale. This was accomplished through the assistance of an agitator. At the Tug River operation in the Tug river district last night, an effort was made by thirty strikers to take possession of the mines. A number of shots were exchanged by strikers and guards.

The strikers finally were driven off. At Norton on the lower Clinch Valley district mines are working with one-fourth their regular force. The mining companies are calling on the sheriffs of the different counties for protection.

Serious State of Affairs.

ROANOKE, VA., June 16.—A number of miners returning from the coal fields reached here to-night. They report a very serious state of affairs around Simmon Creek and Goodwill mines on the West Virginia side. They state that about 500 strikers armed with rifles, revolvers, etc., were to-day marching from that section towards North Fork and demanding that the non-union men now at work quit. They also say the strikers have taken charge of the Goodwill and Simmons Creek mines and have anuounced their determination not to allow the workers to resume tomorrow. They say they will resist any attempt that may be made by the mine owners to resume work.

Quiet at Pocahontas.

ROANOKE, VA., June 16.—According to advices received by the Norfolk & Western Railway Company to day, the only deviation from the usual quiet that has prevailed in the Pocahontas coal region since the strike was inaugurated was the parade of several parties of strikers through the fields. Most of them were accompanied by bands and some of them were armed. These demonstrations later in the day were checked by the counselling of wiser heads, and the later reports indicate that the armed bodies will give up their guns. No serious trouble is anticipated. The numerous meetings of the miners on Sunday and the marching squads have had the effect of somewhat lessening the number of men who have been returning to work. It is not thought here that the strikers have gained many recruits, and it is known that some of the men who were on strike last week have returned to work to day. In the neighborhood of 350 cars of coal were loaded on Saturday, which was a half holiday. This was a gain of about seventy-five cars over the previous day.

Telegrams from the coal fields this evening show that the armed marchers have disbanded and laid down their guns. The Norfolk and Western Company has not yet resorted to the law in order to avert deeds of violence and state that they will not do so until every other means has been exhausted.

The Anthracite Coal Mines.

WILKESBARRE, PA., June 16.—The sixth week of the anthracite coal miners' strike began to-day without a ripple to disturb the calmness of the situation. Rain fell nearly all day, which helped to keep the more than 150,000 idle men and boys in doors. Several reports of assaults on workingmen and coal and iron police were received from different sections of the region, but no one was seriously injured. Most of these attacks occur under the cover of darkness or at the starting time in the morning. It was expected that to-day would witness the refusal of a large number of the fire bosses and other mine bosses to go to work, but the best information obtainable shows that the number of men who quit work was not large. In fact, several of the mining superintendents in this region assert that they had more men at work at the engines and pumps than they had last week. President Mitchell and other labor leaders, on the contrary, claim that nearly half of the men who were at work on Saturday refused to go into the collieries to-day. Neither side gave out any figures.

A Sympathetic Movement.

Casper Clark, of Toledo, O., president of the International Team Drivers' Association, came in for some attention by labor leaders to-day. He submitted to an interview in which he said his organization would do all it could to help the striking miners. He said he would make a thorough canvass of the region to learn the sentiment of his men, which will help to guide the national association if the miners ask the teamsters for help.

Nothing was given out at State headquarters to-day. President Mitchell merely said there was no change in either the anthracite or the West Virginia strike. The mining superintendents of the big coal companies and individual operators had nothing new to report.

CUBAN TARIFF QUESTION.

Suggestion That President Roosevelt May Negotiate a Treaty With Palma.

By Telegraph to the Morning Star.

WASHINGTON, June 16.—President Palma of Cuba has indicated to President Roosevelt his conviction that the rebate proposition relative to Cuban sugar would not only be objectionable in itself, but would be exceedingly expensive and almost impossible to carry out in the distribution.

Should it become apparent that there is no possibility of an agreement between the Senate and House upon the pending reciprocity propositions, then the President probably will endeavor to simplify the problem by dropping the House out of the calculation and negotiating a treaty directly with President Palma. It is true the treaty would require the approval of two-thirds of the Senate, but it is believed that under the changed conditions this would not be impossible of attainment.

CLOUDBURST IN VERMONT.

Five Men Lost Their Lives—The Property Damage Was Large.

By Telegraph to the Morning Star.

BARRE, VT., June 16.—In addition to great property damage caused by a cloud burst over this section late last night five railroad men lost their lives by a freight train on the Central Vermont railroad running into a washout at Middlesex.

The dead include the conductor, engineer and fireman and the brakemen. The train consisted of a locomotive and twelve cars. Passing through Middlesex it was running at a fair rate of speed, when it struck a ditch washed out by a torrent of water. The locomotive leaped into the ditch and the freight cars piled up on the top of it. The trainmen were buried under the ruins. The cloudburst caused a great deal of other damage.
